School and Community Science Programs

Don't miss this opportunity to visit the mobile Antarctic Classroom. Featuring great information, engaging demonstrations, experiments and activities.

Find out more about penguins, biodiversity, climate change, geology, ocean acidification, our atmosphere, Earth's magnetism and Australia's Antarctic heritage.

An eye-opening presentation of Antarctic Science

The Mobile Antarctic Classroom will be on your site for a 1-hour visit, which includes a 30-minute presentation, tours of the Antarctic Bus and activities. Programs suitable from kinder to retirement.

This presentation encourages curiosity and investigation. A great way to inspire kids and adults. Sessions using science, experimentation and activities to jumpstart engagement and inquiry skills.
